Assessment of the visit

9 out of 10 teachers think that MIDE information and activities will be useful to prepare their classes.

In the last 5 years, on average, teachers have rated the service provided to them by MIDE with 8.9 on a basis of 10.

The teachers generally rate their visit to the museus, on average, with 9.

Practically one in four teachers knows of the existence of the books and materials created by MIDE. In 2018 62% of those teachers used them

They pointed out that the materials have activities developed according to the study plans.

The books. put complex concepts into practice.

They have an approach congruent with the standards of the PISA test and the Mexican Educational Reform of the previous government.
